

HOPPEC RUBBER FLOORING SPORTING SYSTEMS

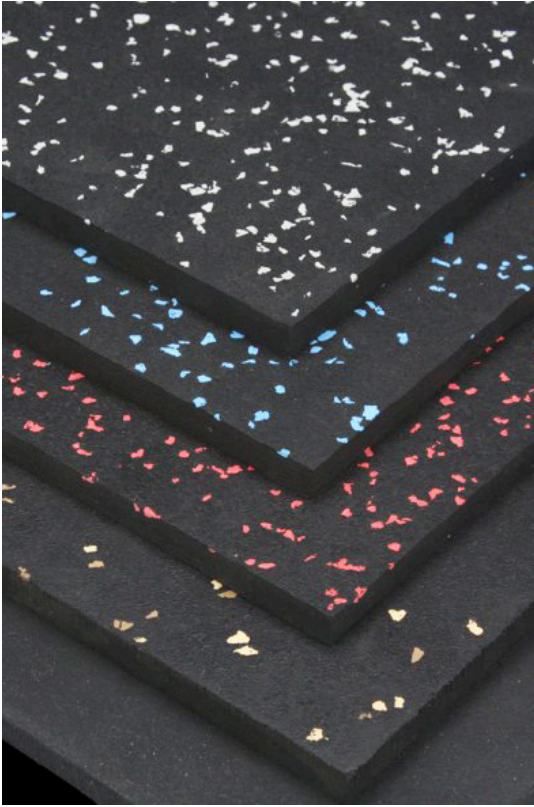

SPORTS RUBBER PRODUCTS

Hoppec rubber tiles are distinguished by their longevity, ease of cleaning, harmonious form, and ability to be used in a number of fields. They feature excellent impact shock absorption making them ideal for sports and multipurpose facilities. Our products are manufactured by an environment-friendly process and can be recycled as process raw material at the end of their service life.

Hoppec products are manufactured from durable and resilient recycled rubber tires and EPDM color granules of the highest quality, making them the popular choice for commercial playground specialists because of their unique designs and ease of installation. They are able to stand almost any weather condition, and one of their main strengths is that they are inexpensive to install. The Hoppec factory is ISO 9001:2015 lean manufacturing, 5S certificate, and labsport certified, and all products are tested by NC, SGS, and labsport France, and have passed DIN EN 1177.

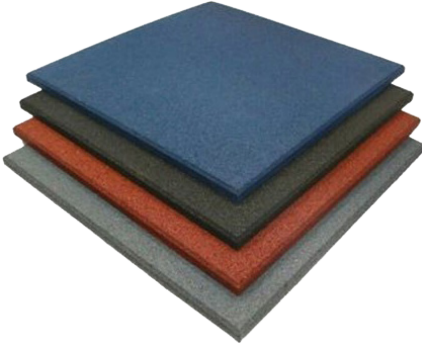

HOPEC GYM SYSTEMS

1. SQUARE SHAPE

Square shape is characterized by its durability, ease of cleaning, harmonious shape, and the possibility of being used in multi purpose fields.

Dimensions

Standard size
1000 mm*70
mm*70 mm

Thickness
25 mm

7. RUBBER RAMP

Rubber ramps from Hoppec are an excellent match for our products. Rubber ramps create a safe and smooth transition zone. When approaching or exiting heavy-weight regions, it decreases the chance of tripping.

Dimensions

50cm*25cm

Thickness

Customizable

RUBBER PRODUCTS ADVANTAGES

1. RESILIENCE : Resilient flooring refers to flooring materials that are relatively firm and stiff, yet will flex to provide a comfortable surface to walk upon. It allows impressive durability.

2. SLIP RESISTANCE : Rubber flooring provides a slip-resistant surface to help protect children from accidents by providing more friction to reduce the chance of falls.

3. PROTECTION OF SUBSTRATE: A good preparation is essential for a smooth installation. Rubber floors require a craft paper underlayment.

4. SOUND REDUCING PROPERTIES: Rubber has sound absorbent qualities. It can soundproof any room by adding mass to prevent sound waves from escaping a wall, or a floor.

5. ATHLETE COMFORT: Ergonomic and shock absorbing for athletes, protecting their joints.

6. EASY CLEANING AND MAINTENANCE: To meet the needs of high frequency use and keep cleaning costs low.

7. EASY INSTALLATION: Just roll out, cut and glue.

8. STABILITY: A safe stand on the floor with no movement or slipping of the devices is possible

9. SHOCK ABSORPTION : Our tiles constantly absorb the shock of falling weights, It provides impact protection by reducing the impact, thereby reducing the risk of injures.

10. PROTECTION OF EQUIPMENTS: Good rubber flooring helps to avoid damage to the sports equipment and avoid replacing them.

11. DURABILITY: Shape-stable, resilient and wear-resistant surface

12. FLEXIBILITY: Loose layable puzzle mat with interlocking teeth and high elasticity, material can easily be rolled and creased

13. PROTECTION OF THE JOINTS: Suitability of the sports flooring even for older people and people in rehabilitation sports.

14. MOBILE FLOOR COVERING: The weight-lifting area can have various designs and should be easy to move or alter if necessary.

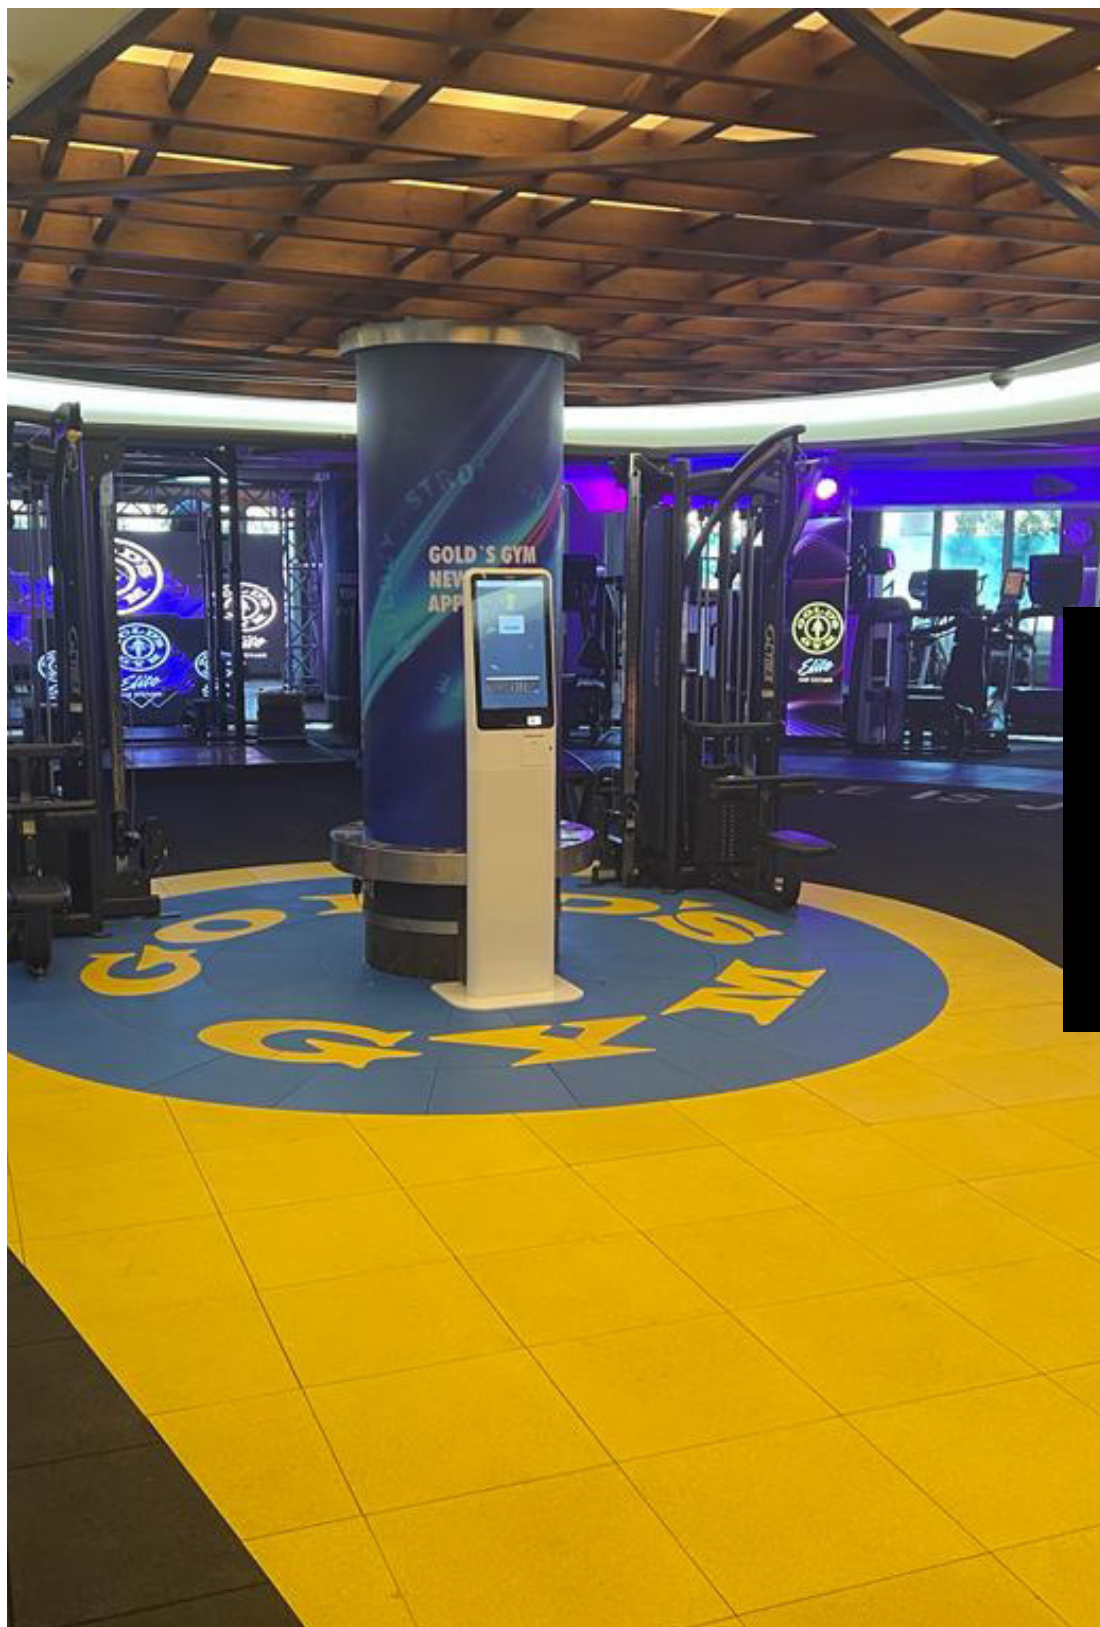

15. COMFORTABLE SURFACE HAPTIC: Slight pebbled surface structure for comfortable feeling.

APPLICATIONS

Hoppec rubber flooring products are used in many applications like aerobics and exercise floors. Our products have multipurpose surfaces used for sports and other activities

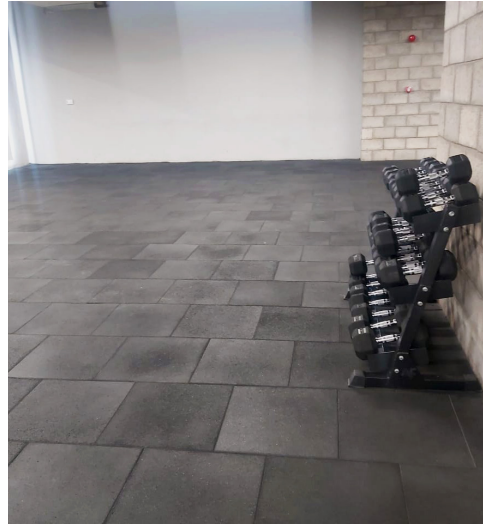

One of our very important applications is the Sports. We offer different kinds of tiles and rolls that are ideal for fitness, cardio, weight lifting, functional training, yoga, and shooting rooms.

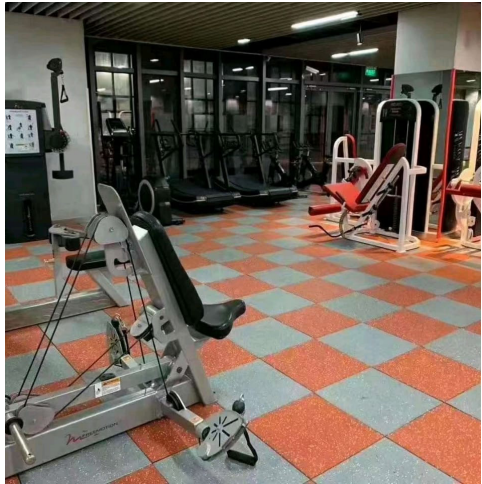

WEIGHT LIFTING

Weight training is a type of strength training that uses weights for resistance. Hoppec products resist the shock of these weights if they are dropped from any height, and also reduce noise and vibration.

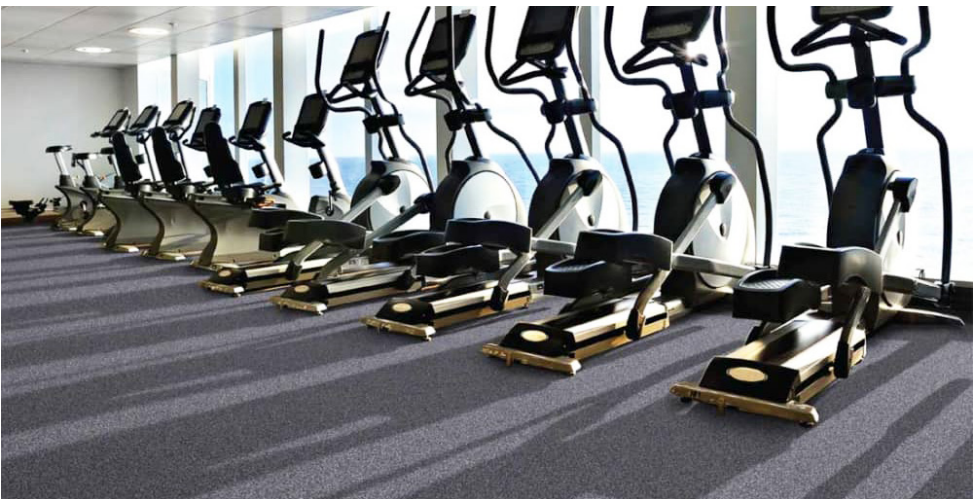

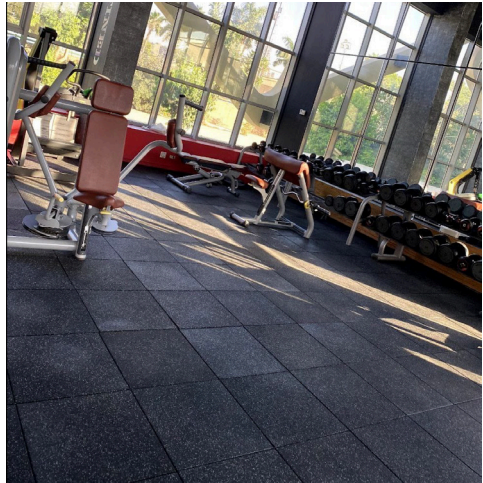

CARDIO

Cardio is the type of workout where your heart rate and breathing increase. Since the exercise includes several activities Hoppec flooring are designed to handle a lot of mild footwork and provide long-term benefits for the workout machines.

SPORTS APPLICATIONS

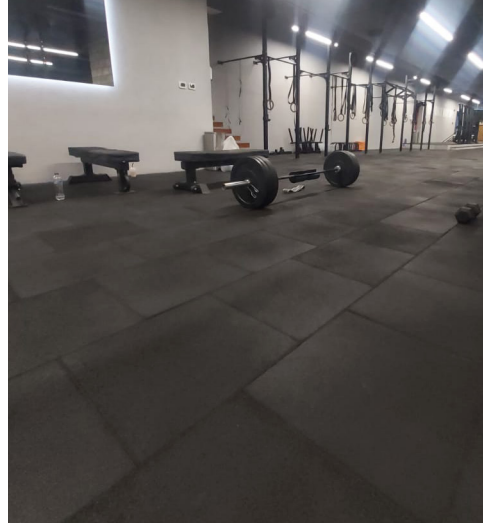

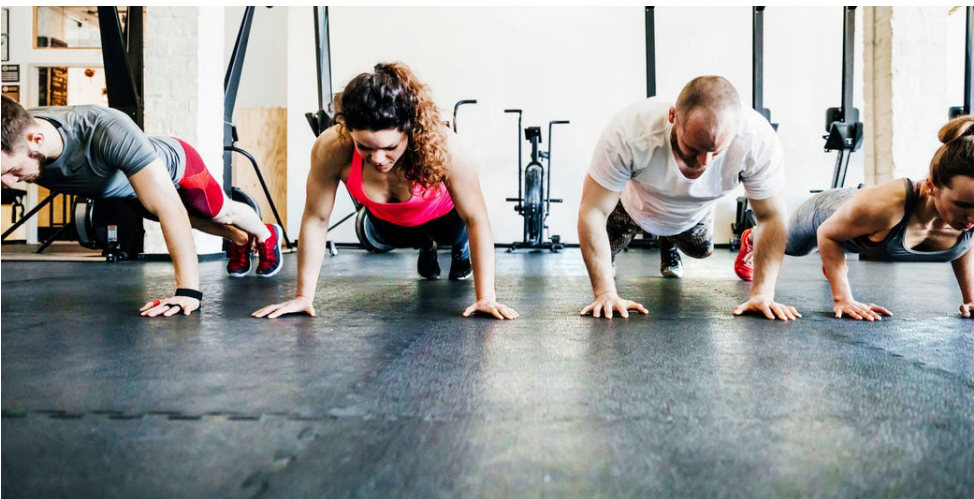

FITNESS

Fitness is one's ability to execute activities with optimal performance and strength. From individual workouts to group training, Hoppec flooring provides an all round solution for fitness training.

SPORTS APPLICATIONS

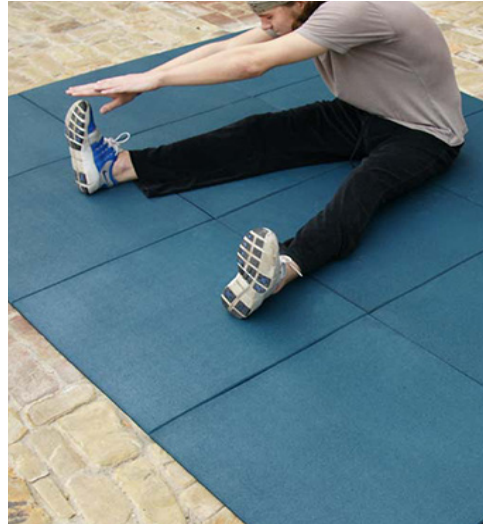

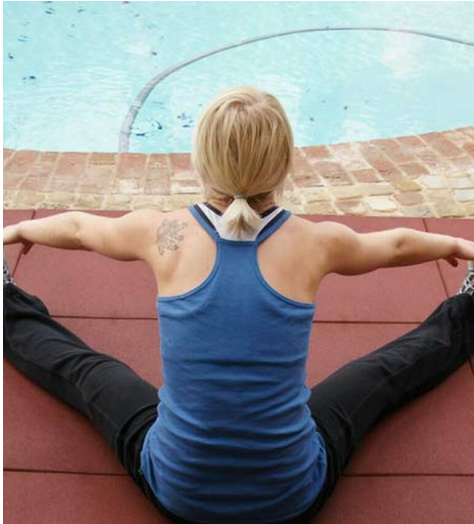

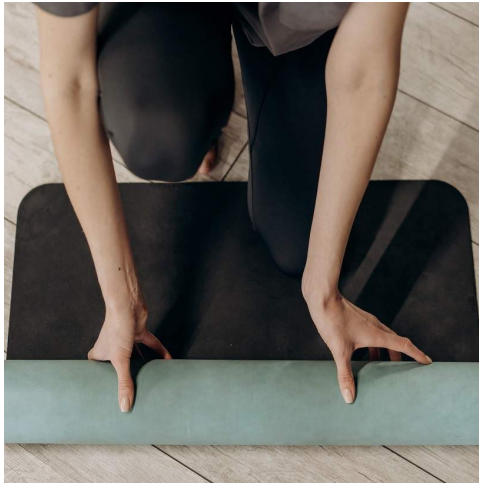

HOPEC GYM SYSTEMS

YOGA

Yoga is a group of physical and mental practices. It improves strength, balance, and flexibility. Hoppec provides a robust base for the toughest work-outs, and a soft base to help flexibility and relaxation.

SPORTS APPLICATIONS

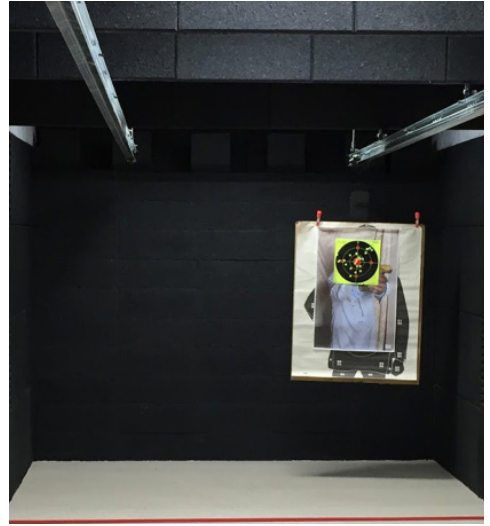

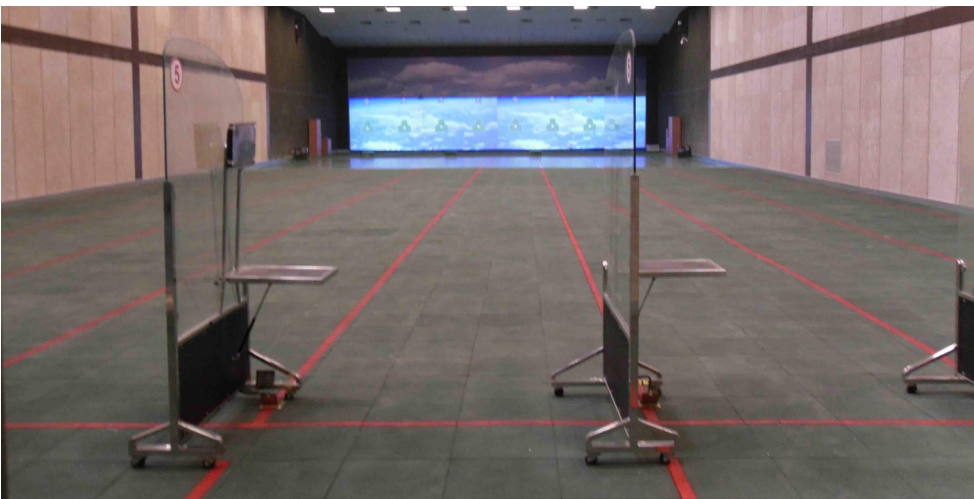

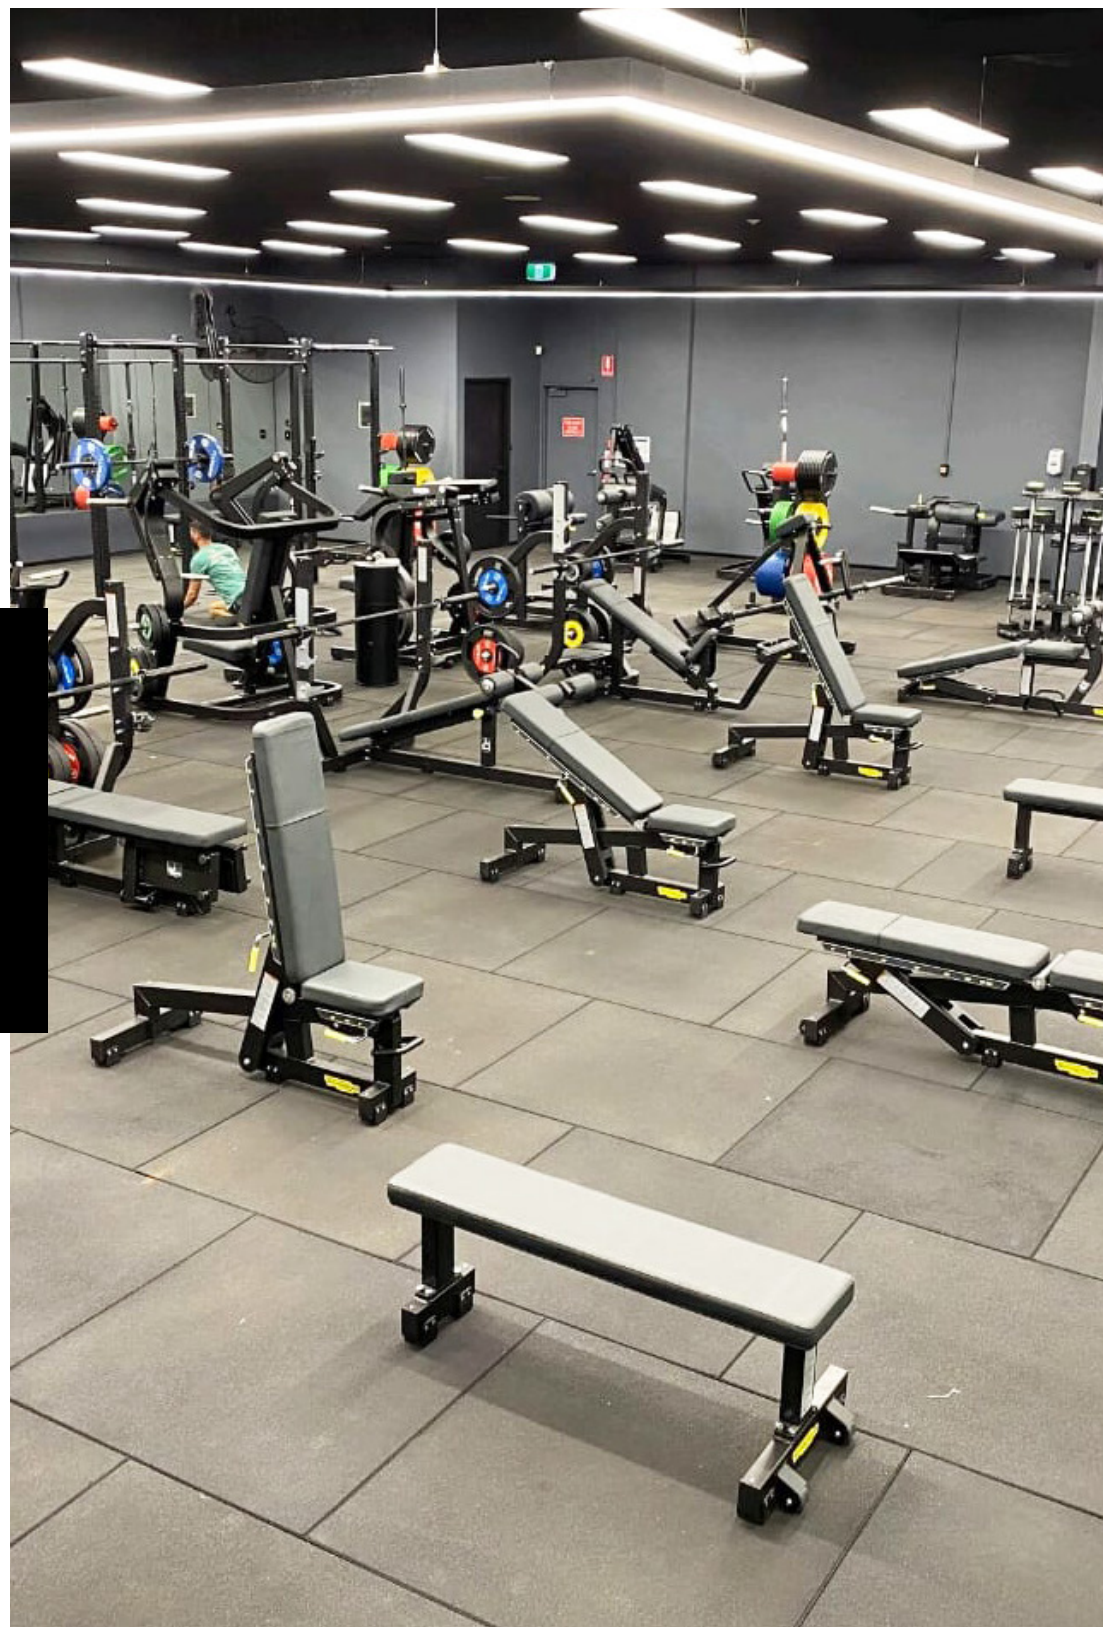

SHOOTING ROOMS

Hoppec shooting provides protection over floors, walls, and ceilings of indoor shooting ranges. Our products are made from elasticity that makes bullet holes practically invisible after absorption. It provides a seamless surface which can be cleaned of gunpowder deposits.
